SUBJECT: Unidentified Flying Objects

TO: Commander
Air Defense Command
Ent Air Force Base
Colorado Springs, Colorado

1. On 20 November 1958, a Mr. [REDACTED], Derby, Colorado, called Special Agent HAROLD G. HODGES, 14th District OSI, Lowry AFB, Colorado, and advised that he had received some 33mm slides which he had taken some time between 18 September and 20 October 1958. [REDACTED] advised that one of these pictures had been of a B-47 vapor trail. He stated that he took the picture at approximately 80° in a southwest direction from his home. When [REDACTED] projected the slides, he noticed a red dot in the picture which he had not noticed when he took the picture.

2. [REDACTED] also advised that as he recalled he had taken this picture in the evening and that there were no other aircraft in the air.

3. On 29 November 1958, Special Agent JAMES C. SMACK received said slide from [REDACTED]. This slide is being inclosed and it is requested by the contributor that the slide be returned to him after observation by proper authorities.

Case 1938

5 January 1959

Dear Mr. [REDACTED]

I am returning herewith your 35 mm color slide ⁹ in which you thought might show an unidentified flying object.

The red dot was determined by the Air Technical Intelligence Center photo lab people to be a perforation of one or two layers of emulsion. If the slide is held at an angle to a light source, a small rise with a pit at the center can then be seen.

Sincerely,

Incl
